*GeoComfort Factory Visit & Tour*  
 October 23-24, 2014 ~ Mitchell, SD  
 phone: 618-664-9010  
[www.enertechgeo.com](http://www.enertechgeo.com)

**Tavino cont'd from page 13.**

9. Insulation data supplied was never installed, so my New York client from last year will have me inspect an additional borehole to be drilled later this month.
10. A retrofit job I designed featuring a short tunnel under a sidewalk for the loop trench is awaiting state financing.
11. Two big projects of 50 boreholes plus with thermal conductivity testing are supposed to start this fall.
12. The *New York Times* reporter, with whom I spoke, plans to visit a house we retrofitted this spring, and interview my clients.
13. Our Habitat for Humanity volunteer project has the heat pump connected to the ducts, and I am almost finished with my PowerPoint on it for the October Baltimore conference.
14. Candidates are registering for a three-day installers workshop I will conduct in Massachusetts in August (this article being written in July).
15. My new online and classroom course *Heat Loss and Gain in a House* was approved by the Building Performance Institute, and will be taught at our local college in November.
16. I learned last week a New Jersey house on which I consulted this past winter was bought by Ice T, the rapper and TV actor.
17. A client from four years ago recommended me to his pilot instructor friend, and I must e-mail him right now, to schedule a meeting this week!!

*The statements and comments in this article are my own and are based on information and references believed to be true and factual. If you have any questions or comments, please forward them to me care of WWGR.*

*Peter*
